Amendments to the Claims

This listing of claim will replace all prior versions and listings of claim in the application.

1) - 47 (cancelled)

48) (previously presented) A method for providing a user with a battery, comprising the steps of:
generating a short-range radio signal, containing information regarding a battery life of a
device, from the device in a short distance wireless network to a cellular device;

generating a cellular signal, containing the information, from the cellular device to a processing device in a wide area network; and,

providing, by an entity, the user of the short distance wireless network with the battery for the device responsive to the information.

49) – 54) (cancelled)

55) (previously presented) A method, comprising:

accessing a first server in a Wide Area Network ("WAN") from a first device, having a battery, in a short distance wireless network;

storing a usage information of the first device accessing the first server;

transferring the usage information to a second server in the WAN;

providing an invoice to a user of the short distance wireless network responsive to the usage information:

obtaining a battery information regarding a health of the battery in the first device;

transferring the battery information to a third server; and,

providing a replacement battery to a user of the short distance wireless network responsive to the battery information.

56) (previously presented) The method of claim 55, wherein the storing step includes storing the usage information in a second device in the short distance wireless network and the transferring step includes transferring the usage information from the second device to the second server.

- 2 -

57) (previously presented) The method of claim 55, wherein the second and third servers are the same servers.

58) (cancelled)
